

PROPERTY SET UP

A quick guide to getting started

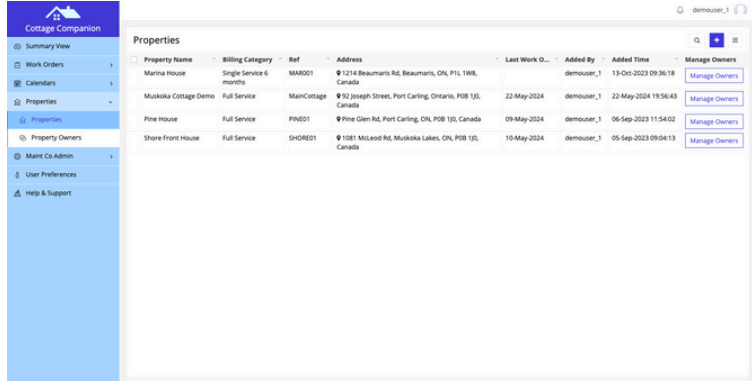

1

Properties

- A record exists for each property that you manage
- As well as the address you can store any relevant information against the property
- Your customers, the property owners, are associated with a property

- The property name that is entered is used in all the drop down selections of properties
- It is also possible to define a property ref which could be linked to your accounting system
- The billing category determines how you will be billed for this property
- On the menu there are options to add and view attachments

Property Name	Billing Category	Ref	Address	Last Work Cl.	Added By	Added Time	Manage Owners
Marina House	Single Service 6 months	MAR001	1214 Beaumont Rd, Beaumont, ON, P1L 1W8, Canada		demouser_1	13-Oct-2023 09:36:18	Manage Owners

2

Property Owners

- These are your customers and they are linked to their properties
- Property owners can be set up before invites are sent to owners
- A property can have multiple owners - which they can manage
- An owner can also have multiple properties

- You can add and manage owners from the properties list or the property owners menu option
- It is possible to resend an invite and remove access to a property
